

GEMG Secretary
C/O PO Box 2412
Kalgoorlie WA 6432

The Goldfields Environmental Management Group is a technical and professional body of people working to achieve environmental excellence. The GEMG provides a source of expertise and information on environmental management practices with a focus on arid and semi arid environments exploring such issues as protection of biodiversity, mine closure and rehabilitation, environmental management systems, environmental culture and management of water issues. The GEMG achieves this by providing information and education to the public and industry with a key component being the sharing of knowledge and information between members. The GEMG's biennial workshops are an important component in achieving the above, and are highly regarded for their high standard and productivity.
